

## **SABA North America's Statement regarding the 2024 Presidential Election**

**November 6, 2024**

### **FOR IMMEDIATE RELEASE**

On Tuesday, American voters elected Donald J. Trump as the 47th President of the United States.

This election cycle was a divisive one, filled with uncertainty and anxiety about the future of our nation and democracy. As a non-partisan organization of legal professionals with affiliations across the political spectrum, SABA North America is committed to working with President Trump and his administration to ensure that the voices of our members are heard on a broad range of policy issues impacting the South Asian community, from racial justice and immigration to religious discrimination, reproductive rights, and the rule of law.

These issues, which were at the forefront of South Asian voters in this election, will undoubtedly remain key policy issues for the upcoming administration. SABA North America will continue its advocacy efforts by continuing the following:

1. Pushing for comprehensive immigration reform, as it did in December 2023 when it submitted its comments to USCIS's proposal for improving the H-1B program and registration process under the Biden-Harris Administration.
2. Lobbying for reproductive justice freedoms, an issue that uniquely affects Asian American and South Asian American women; and
3. Advocating for key endorsements and nominations of qualified South Asian attorneys to the judiciary, including the U.S. Supreme Court.

SABA remains steadfast in its support of our members and members of the South Asian community to exercise their fundamental rights and liberties under the Constitution. SABA continues to work with its chapters and community partners to ensure that the rights and liberties of its members and the South Asian community are protected.
